Preface

Welcome to **lycl** — an open source book written in public.

The latest version of this book is always available at https://lycl.org. You can also download it as **PDF** or **EPUB** using the buttons in the sidebar.

How this book is made

The book is written in Markdown and kept in a public Git repository on GitLab. Every change merged into the main branch automatically rebuilds the website and the downloadable editions.

License

This book is licensed under the Creative Commons Attribution 4.0 International License (CC BY 4.0). You are free to share and adapt it, as long as you give appropriate credit.

1. Introduction

TODO: write the introduction.

This is a placeholder chapter. Replace it with real content.

1.1 What this book is about

…

1.2 Who this book is for

…

2. Chapter Two

TODO: write this chapter.

As discussed in Chapter 1., ...

How to Contribute

This book is open source, and feedback is very welcome.

- **Found a mistake or have an idea?** Use the *Report an issue* link in the sidebar, or open an issue at https://gitlab.com/artemrusin/lycl.org/-/issues.
- **Want to fix something yourself?** Use the *Edit this page* link — it opens the chapter in GitLab, where you can propose a change as a merge request.

See `CONTRIBUTING.md` for details.
